

## 03116 tag (20130614)1:1 MX

Reading the display:

- To view time, tap B. The number of lights around the edge tells the hour, and the minute is displayed in the center.
- To view the date, tap B while time is displayed. The light at the edge tells the month (for example, a light at 4:00 means April), and the day is displayed in the center.

Setting time and date: When the display is lit,

- Hold B until the hour lights flash, then tap B to adjust.
- Hold B until the minutes flash, then tap B to adjust.
- Hold B until the month lights flash, then tap B to adjust.
- Hold B until the date flashes, then tap B to adjust.

When finished with your settings, wait until the display turns off – the settings will be saved.

Lithium Battery CR2016

size:25mmX50mm
